DECENTRALIZATION

What does "decentralized" mean? What are the advantages and what are the benefits?

Decentralized marketing is created with an automated contract that offers you maximum security and sustainability. A smart contract is an automatic execution algorithm. It exists within the Polygon blockchain , one of the TOP cryptographics currency.

Smart contracts, like cryptocurrencies, are decentralized. They work strictly according to the underlying program, without the possibility of subsequently chan ging the defined execution. The code that contains all the logic of the contract expiration is on the blockchain and all calculations are provided by millions of computers around the world. This ensures that there is no risk of hacking into the smart contract and stopping the project

HOW DOES POLSAGE MATRIX MARKETING WORK?

POLSAGE MATRIX MARKETING is a fair, economically sound system, without deadlines POL slots, with a limited number of places and an unlimited number of repeat.

In the [POLSAGE X3 PROGRAM](#) below you is three places in one line. In the [POLSAGE X4 PROGRAM](#) below you are two lines – 2 places in the first line and 4 places in the second. When you register in POLSAGE, you open both programs simultaneously.

POLSAge Slots X3

In each of these two programs, **POLSAge X3** and **POLSAge X4** have 12 slots. All similar and work in the same way. Each subsequent slot is 2 times more expensive than the previous one. Both income and profits from them are twice as high!

How many slots can be activated immediately? As much as you want! At least all fifteen at once! They have no expiration date, so you can not be afraid that they will burn. All active slots move and bring you revenue in parallel

POLSAGE X3

POLSAGE

All partners in your slots of the Polsage x3 program are your personally referral partners. When you invite partners, they take places under you. The distribution of payments when filling out the matrix automatically occurs as follows:

The first referral partner takes a place under you. 100% payout goes to your personal wallet.

The second referral partner takes second place below you. Payment is also instantly credited to your personal wallet.

The third partner takes third place below you. You again receive 100% income, but in the form of **REPEAT**.

REPEAT opens the same slot for you again, and you continue to receive income from it. Reopening the slot, you take next free place in your superior partners' slot. Accordingly, 100% for repeat is transferred to your superior.

UPLINE

YOU

In parallel, the **POLSAGE X4 PROGRAM** also works for you, here an overflow system is organized from above and from below. We are building a team together. There may be at least all of you invited, at least not one invited by you, or mixed.

Partners who takes two places below you in the first line are two places in the second line of the higher. A 100% payment goes to the wallet of your higher partner.

You also receive income from the second line, 100% from four people. Of these, 3 payments go instantly to your wallet.

The last payout is the closing slot, and it also makes a repeat, buying you the same slot again, and the payment of 100% is transferred to your higher partner.

REPEAT

REPEAT – this is the re-opening (purchase) of the slot at the current level.

Repeat opens the same slot for you again, and you continue to receive income from it. Without repeat, this slot would close, and that's it.

Repeat takes place automatically, as soon as you occupy the last free place, the current slot closes and goes to the archive.

You re-occupy the free space in the slot with a higher partner and a new slot with free places opens for you, and 100% payment goes to the wallet of your higher partner.

Similarly, your referral partners will have repeats, and you will instantly receive income every time

UPGRADE

UPGRADE – is the opening (purchase) of the next slot of a more expensive level. It is done once at the first opening of the slot. The payment goes to your superior partner, provided that he has a slot of this level.

There is enough income from each slot to repeat the slot of the same level and buy a slot of the next level.

You decide whether to purchase the next level slot! A repeat of the slot occurs automatically. If the next slot is not open for you, then from the second round, after repeat, all payments will be redirected to a higher partner.

When you buy the necessary slot, then at the next repeat your referral partner will take a place under you, and with each repeat will take a place under you again.

Lost profit – payment left to a higher partner, due to the lack of an upgrade to a more expensive slot.

Extra profit – payment received to you at the expense of the **Lost profit** of a lower partner.
